PAPERS.

THE LAW IN RELATION TO NEWS-

 Subscribers who do not give express notice to be contrary, are considered wishing to continue their subscription.
2. If subscribers order the discontinuance of

heir papers, the publisher may continue to send hem until all arrearages are paid.

3. If subscribers neglect or refuse to take their papers from the office to which they are sent, they are held responsible till they have settled their bills, and ordered the paper discontinued.

4. If subscribers move to other places without informing the publisher, and the paper is sent to a newspaper or periodical from the office, or re-

moving and leaving it uncalled for, is prima facial To Postmasters.

County postmasters should bear in mind, to county postmasters and a dear it mind, for their advantage as well as that of the local press, that for every county paper delivered by them to subscribers, they are entitled to retain of the post office funds ten and one-half cents per year. It is for their interest, as well as that of the publisher, that the county papers be preferred, since there is no trouble of making collections or keeping ac-counts thereof, as on papers printed out of the county, the commission of which will not average more than from six to eight cents per year.

present to the American pupile, free of charge, the constitution of the United States of America, neatly bound, together with an improved Almanac for the year 1862, called "Dr. Radway's Constitu-tional Almanac." As soon as practicable, Dr. Radway's Agents, in every village and town throughout the union, will be furnished with a

supply, for free circulation. A copy of the same will be sent to all who will enclose a stamp for the payment of postage.

Druggists, booksellers, newsdealers throughout the country, desirous of aiding us in distributing to the people the Constitutional Almanac, are inited to send in their orders. No charges will be

made for the same. We also invite the people of the Canadas, Brit-ish Provinces, and, in fact, all who can read the English language throughout the world, to accept as gifts from us our Constitutional Almanac. We will send to any one who is willing to pay the postage on it a copy; or if the citizens of any town or village will accept from 100 to 500 copies. we will furnish them free of charge. Being convin-ced that if our foreign friends will carefully read

23 John Street, New York. HOW OUR SOLDIERS SHOULD BE PREPARED

Health and discipline are the most important elements in an army to ensure success. Discipline It is, therefore, of the greatest importance, that the system of medication best adapted for the pro-

fessional prejudice, be adopted.

This is no time for medical martinets to quibble about professional dignity. All the dignity the and well-known physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietors, and to be had graits of any of their stekness among the troops nor cure those afflicted. Agents, cannot but satisfy the most skeptical that this remedy is really deserving of the great celeistriy it has obtained.

healthy condition; and the most sure means of securing this desideratum is through the remedial

Measles, and other malarious and infectious discuses Bear in mind, we say, that Radway's Ready Re-lief will protect the troops exposed to these dis-eases against attacks. Now, it is conceded by all the medical men in our army, that they have no reliable means of preventing attacks of these diseases, neither have they any positive assurance of curing the sick; but, on the contrary, the majority of the sick, seized with fever and ague, typhoid, billious and other fevers, either die, or inger along until they are reduced to mere wrecks and walking skeletons. Experience has established the fact that the treatment of calomel, quiring and mercury, in cases of fever and ague, typhoid fever and other fevers of this class, is more injurious in camps than in private practice, when we take into consideration that canvass walls and exposure to heavy dews and the majaria from pools of water and damp grounds, prove but a poor shelter for the sick, we may readily conjecture that the penalties of mercurial and quimine treatment will, in the majority of cases, be exhibited in the form of theu matism, neuralgia, pairs and stiffness in the joints, engorgements of the liver, jaundice, yellow jaun-
